

Canoe Cove Community Association

Fall 2020 to Fall 2021 Annual Report

Nov 8, 2021

### **Introduction**

2020 was a year of pause for our local community and our Global community as we dealt with something that made us feel disconnected from the world and delivered a realization of how closely connected we are to every other person on the planet. As we continue to feel the impacts of the Global pandemic it is comforting to be reminded of the local community support we enjoy as well as the amazing natural beauty of Canoe Cove.

### **Activities**

With all of the events for 2020 being cancelled there is little to report on. The Parking lot was well used with the painted lines for pickle ball and there was a great response to the addition of the basketball net.

2021 was a chance for us to get together as a community as we held our Perennial sale in the spring. A foggy morning burned off into a nice sunny day. Attendees were very used to following Covid protocols and we had a very successful event that was well attended. The feedback I received from the community was that it was a welcome break from the perpetual lock downs and cancellations of events that had been the norm in 2020. With no indoor events held for the 2020-2021 this was a great chance to chat and catch up with neighbours.

It was great to have the building being used weekly for Yoga classes. Hopefully we will be able to hold more events in 2022.

### **Building**

The Building will need some attention in the near future, specifically the furnace. Other than general maintenance we did not do any work to the building this year.

Ben Garro

Chair, CCCA
